The Consumer Goods Forum Board-Approved **RESOLUTIONS & COMMITMENTS**

Our Public Work to Drive Positive Business Actions that
Benefit People and the Planet

ABOUT THE CONSUMER GOODS FORUM

The Consumer Goods Forum (“CGF”) is a global, parity-based industry network that is driven by its members to encourage the global adoption of practices and standards that serves the consumer goods industry worldwide. It brings together the CEOs and senior management of some 400 retailers, manufacturers, service providers, and other stakeholders across 70 countries, and it reflects the diversity of the industry in geography, size, product category and format. Its member companies have combined sales of EUR 3.5 trillion and directly employ nearly 10 million people, with a further 90 million related jobs estimated along the value chain. It is governed by its Board of Directors, which comprises more than 50 manufacturer and retailer CEOs.

RESOLUTIONS: ENVIRONMENTAL SUSTAINABILITY

Food Waste (approved June 2015)

As the Board of The Consumer Goods Forum, we recognise that food waste is a major social, environmental and economic challenge. It undermines food security, contributes to climate change, consumes scarce natural resources such as water unnecessarily, and costs money. We are committed to doing our part to help reduce food waste. Our aim is to:

1. First prevent food waste, then maximise its recovery towards the goal of halving food waste⁽¹⁾ within our own retail and manufacturing operations by 2025, versus a 2016 baseline⁽²⁾.
2. Contribute to the UN goals by 2030⁽³⁾:
 - to halve per capita global food waste at the consumer level,
 - and to reduce food losses along production and supply chains including post-harvest losses and maximise the value of the remaining waste.

We will achieve both by individual company initiatives, by engaging with our supply chains and end consumers (where material) and by working collectively in partnership with governments and NGOs.

(1) Food waste will be assessed by individual member companies as food and/or associated inedible parts removed from the food supply chain and sent to disposal (landfill, draining or incineration without energy recovery) per unit of food sales (in constant currency).

(2) Please refer to point 2 of the Implementation Plan for further details.

(3) Based on the UN Sustainable Development Goals on Food Waste adopted by UN Member States in September 2015.
